

ABOUT US

Women's Services began in the late 1970s through the efforts of a small group of concerned men and women with a mission "to meet the needs of women and their children in Crawford County by sponsoring, facilitating, and developing programs that meet those needs." We started as a local grass roots task force under the direction of the Crawford County Drug & Alcohol Commission. In 1977, the task force organized as an independent organization, thereafter known as Women's Services, Inc.

MISSION & VISION

Women's Services provides hope and resources for those affected by violence and advocates to end it.

We envision communities free of violence.
